DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicant's submission filed on February 20, 2008 has been entered.

2. The object to claim 1 is withdrawn in view of Applicant's amendments.

3. Claims 1-10, 12-36, and 41-42 have been examined, and all remained pending claims now are being allowed (renumbered 1-37).

Examiner's Statement of Reasons for Allowance

4. As Applicants pointed out in the Remarks, the prior art of record do not disclose and/or fairly suggest at least claimed limitations in independent claims 1 and 10:

In particular, Hartmann fails to teach "mapping each individual instrumentation in the inventory of instrumentation to a state of operation of the software component before the instrumentation is generated, the state of operation before the instrumentation is generated being from a list comprising running, failed, stopped, paused, non-activated, and activated".

Hartman also fails to teach "mapping each individual instrumentation in the inventory of instrumentation to a state of operation of the software component after the instrumentation is generated, the state of operation before the instrumentation is generated being from a list comprising running, failed, stopped, paused, non-activated, and activated". Hartman also fails to teach "representing the health model in a table comprising fields including an event group, an event identification, the state before an event occurs, the state after an event occurs, an anti-alert, a remedy, a blame component, and a description" (Remarks, page 10).

These claimed limitations are not present in the prior art of and made of record and would not have been obvious, thus all pending claims 1-10, 12-36, and 41-42 are allowed (renumbered as 1-37).

Conclusion

5. Any inquiry concerning this communication should be directed to examiner Thuy Dao (Twee), whose telephone/fax numbers are (571) 272 8570 and (571) 273 8570, respectively. The examiner can normally be reached on every Tuesday, Thursday, and Friday from 6:00AM to 6:00PM.
